- 20% said they would discuss contents of the webinar with colleagues to inform action
- 20% said they would recommend PHNC to colleagues

There were 9 new members as a result of the webinar.

Additional comments:

- "More details around what is contained within each section of the agreement and the powers of devolved governments in actioning this early"
- "Trade and nutrition; international good practice on health and trade (potentially with some international participants)."
- "Thanks to all. It was very interesting and useful....if complicated at times!"
- "Sometimes it was a little hard to follow as terminology was specific - I would have benefitted from Leah slowing down and explaining all terminology used throughout. Apart from that was a very stimulating discussion."
