

Siopau cludfwyd mewn Trefi Takeaways in Towns

Ble dylen ni leoli defnyddiau
bwyd?

Where should we locate food
uses?

Ffasiwn Polisi:

Siopau cludfwyd poeth o amgylch ysgolion

- Cyfyngiadau ar sefydlu Siopau Cludfwyd Poeth o amgylch ysgolion a chymunedau.

Tystiolaeth o gydberthynas – mwy gydag ardaloedd o amddifadedd na'r ysgol

Ai'r system gynllunio yw'r dull cywir o gyflawni'r nod hwn?

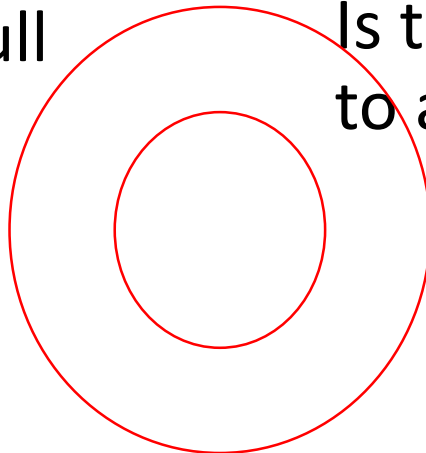

Policy Fashion:

Hot food takeaways around schools

- Limits placed on the establishment of Hot Food Takeaways around schools and communities.

Evidence of a correlation – more with areas of deprivation than school

Is the planning system the right tool to achieve this aim?

Cyfyngiadau'r system gynllunio:

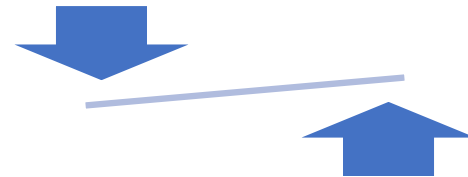

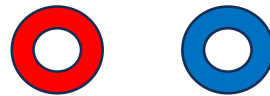

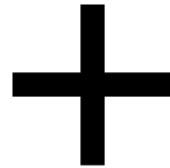

Datblygiad newydd yn unig

Newid defnydd sylweddol yn unig

Dim ond gwahaniaeth rhwng bwyd poeth neu oer – nid yw'n cyfrif calorïau

Cyfyngiadau gorfodi

Nid yw cynllunio yn wych ar gyfer rheoleiddio diogelwch – balans cynllunio bob amser yn hytrach na phenderfyniad trothwy diogelwch

Planning system limitations:

Only new development

Only a material change of use

Only hot or cold food distinction – does not count calories

Enforcement constraints

Planning not great for safety regulation – always a planning balance rather than a safety threshold decision

**Os nad o gwmpas yr ysgol,
ble?**

**Byddwch yn wylidwrs o
ganlyniadau anfwriadol!**

**If not around schools then
where?**

**Beware unintended
consequences!**

Polisi canol y dref yn gyntaf – ond
beth os yw ysgolion yng nghanol
trefi?

Lleoliadau ymylol – a yw hyn yn
annog gyrru? Effeithio ar
ddiogelwch ar y ffyrdd, nwyon tŷ
gwydr a llygredd arall

Os ydyn ni'n dechrau o'r dechrau
e.e. tref newydd, ble fyddai ein
defnyddiau bwyd?

Drosodd i chi! - Trafodaethau
gweithdy

Town centre first policy – but what if
schools are in town centres?

Peripheral locations – does this
encourage driving? Affect road safety,
greenhouse gases and other pollution

If we are starting from scratch eg a
new town, where would our food uses
be?

Over to you! – Workshop discussions

Cwestiynau Gweithdy

- Ble ddylen ni leoli defnyddiau bwyd mewn trefi? Lleoli siopau cludfwyd poeth, caffis, tafarndai, bwytai a siopau bwyd manwerthu
- Beth yw'r prif resymau dros eich penderfyniadau?
- Beth yw'r canlyniadau anfwriadol?
- A yw'r lleoliadau'n effeithio ar bob sector o'r gymdeithas yn gyfartal?
- A yw'r lleoliadau'n cefnogi polisi canol y dref yn gyntaf?
- A yw'n hawdd gwahaniaethu rhwng defnyddiau? Sut gallen ni wneud hyn?
- A fydddech chi'n rheoli dwysedd defnyddiau? Ym mha ffordd? Sut fydddech chi'n penderfynu faint sy'n dderbyniol?
- Os ydych chi'n gwahardd mwy o siopau cludfwyd, a yw sefyllfa fonopoli yn dda neu'n ddrwg?
- A yw pobl bob amser yn gyrru i siopau cludfwyd – ac felly a yw hyn yn effeithio ar ble ddylen nhw fynd?
- A yw gwasanaethau dosbarthu yn golygu nad yw'n gwneud gwahaniaeth bellach ble mae mangre wedi'i lleoli?

Workshop Questions

- Where should we locate food uses in towns? Locate hot food take aways, cafes, pubs, restaurants and retail food shops
- What are the key reasons for your decisions?
- What are the unintended consequences?
- Do the locations affect all sectors of society equally?
- Do the locations support a town centre first policy?
- Is it easy to distinguish between uses? How could we do this?
- Would you control the density of uses? In what way? How would you determine how many are acceptable?
- If you ban more takeaways is a monopoly situation good or bad?
- Do people always drive to fast food takeaways – and therefore does this affect where they should go?
- Do delivery services mean it no longer makes a difference where premises are located?
