

# Deep dive: Wales

Chris Brown, Head  
WHO European Office for Investment for Health  
and Development

# Objectives

**#Health4Wellbeing**

# Aim of the deep dives series on the well-being economy

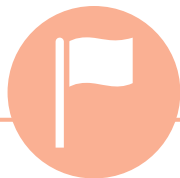

## Stock-take

Provide a rapid stock take on the evidence for policy

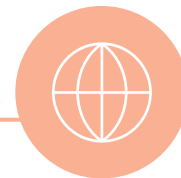

## Document and showcase

Document and showcase new policies and approaches supporting countries in their shift to well-being economies

## National-level

Support national-level discussions and cross-sector policy dialogues

## International

Support international exchange, learning and collaboration

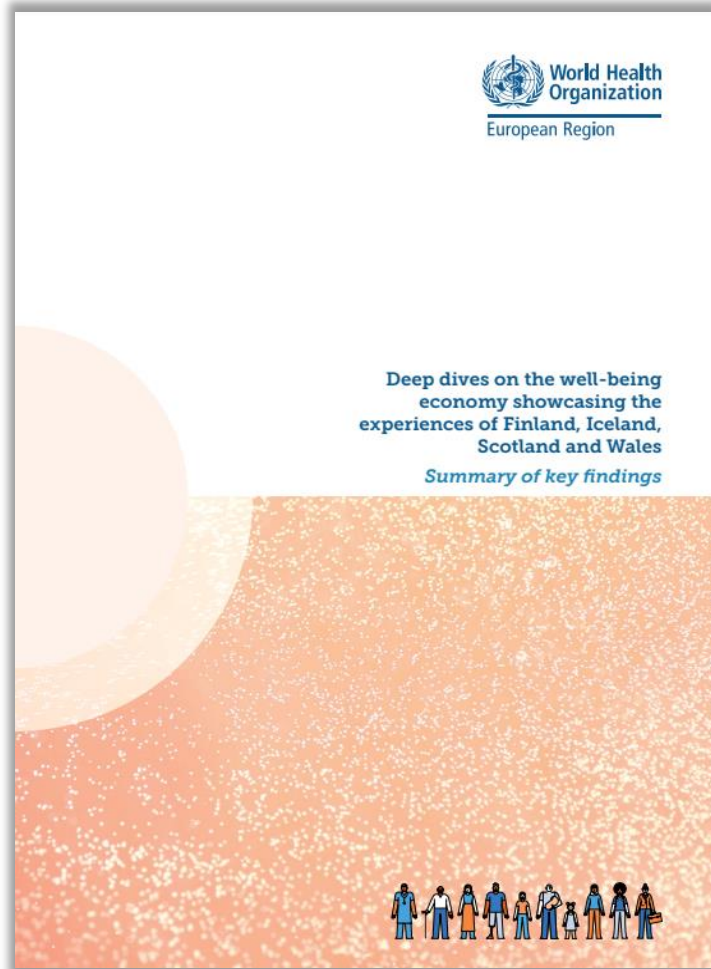

## Advocacy-building

Provide evidence for advocacy-building

**#Health4Wellbeing**

# Each country deep dive showcases:

*Drivers of the country's shift towards a well-being economy*

*Key concepts and strategies*

*Governance structures and mechanisms*

*Monitoring and metrics*

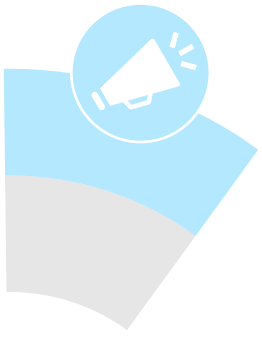

*The specific role played by (public) health*

*Enablers and barriers*

**#Health4Wellbeing**

# Key take-home policy messages (1/2)

*From the experiences of Finland, Iceland, Scotland and Wales in shifting to well-being economies*

## High level commitment

*key for advancing well-being economies nationally and internationally.*

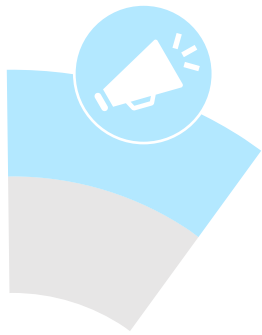

## Leveraging international collaboration

*important for building political constituency and fostering innovation.*

## Legislation and politically binding commitments

*play an essential role in implementing policies that are aligned with the well-being economy.*

# Key take-home policy messages (2/2)

*From the experiences of Finland, Iceland, Scotland and Wales in shifting to well-being economies*

## The (public) health sector

Plays an important role both as **advocate** and **change agent**

Acts as a **convener** by facilitating **cross-governmental dialogue**

Contributes to shaping policies that **maximize impact on well-being**

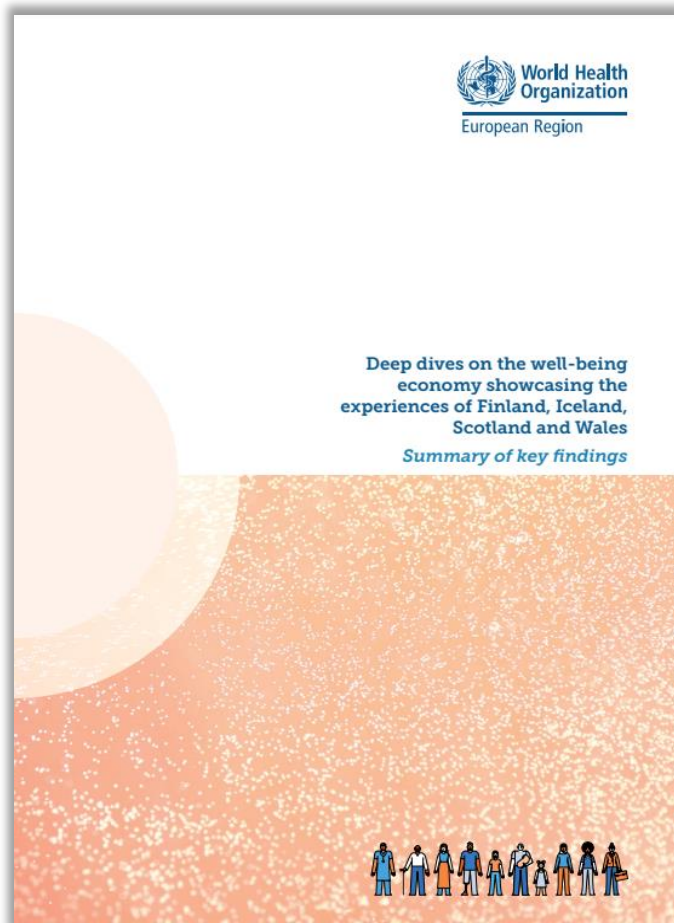

Advances **existing welfare state systems**, building on “Health in All Policies”

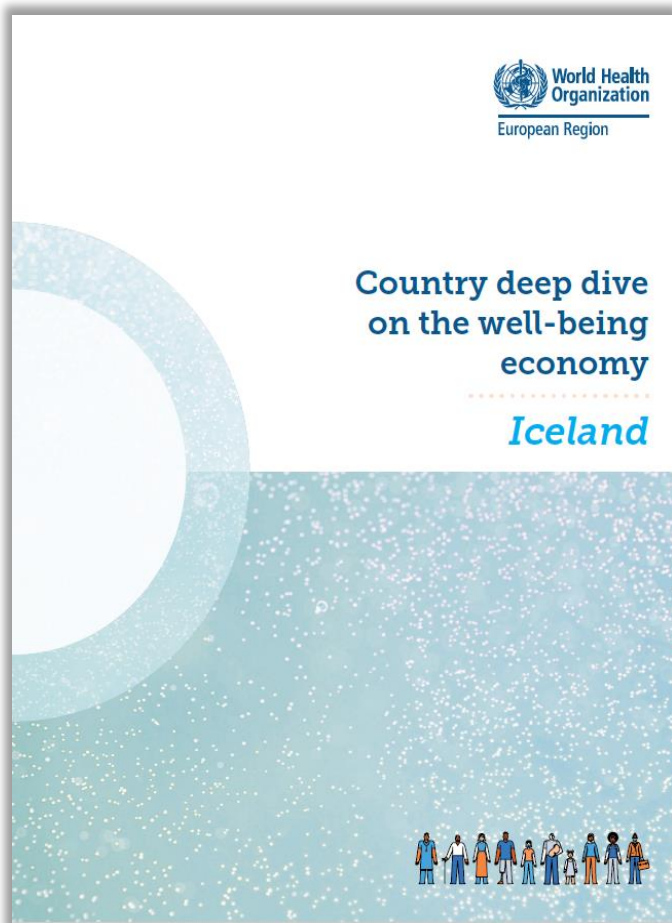

**The health sector is a driver, co-creator and beneficiary of well-being economy policies!**

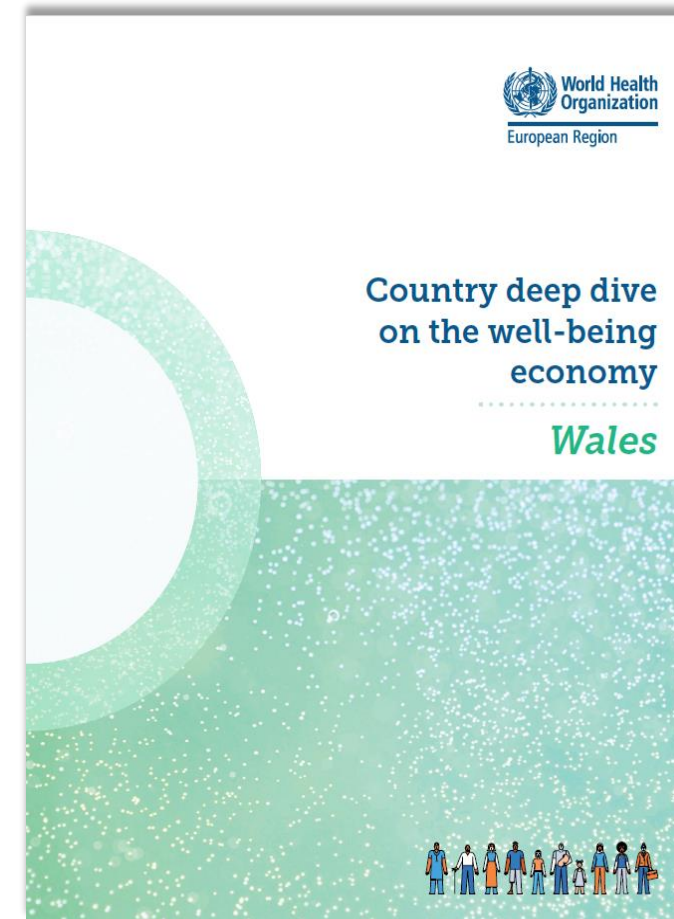

**#Health4Wellbeing**

**Summary of key findings  
(Finland, Iceland, Scotland and Wales)**

**Deep dive on Iceland**

**Deep dive on Wales**
